

SPRING/SUMMER 2011 SIRSAK LEAF COLLECTION

There are those who fall in love with the beauty of the stones and create. There are others, who fall in love with the beauty of the creations. This is indeed a cycle of appreciation that begins with the minerals, moves through the design and production process, on to the acquisition and giving of a gift to a loved one, be that be oneself and ends by returning once more to the minerals at the centre of the piece. Beautiful crafted silver and gold designer jewelry with precious and semi-precious gemstones hand-made in Bali, Indonesia.

Tricia's pieces are classically influenced yet fashion forward. A fusion of clean modern lines enhanced with mystical metaphors and special attention to detail. Her mission is to develop pieces, which are not only pleasing to the eye, but also pleasing to the body through the healing properties of the stones and symbols. The minerals, which come from all over the world, are a mixture of faceted and raw stones set in 925 sterling silver, 18K gold, and brass.

SIRSAK: Nature's Offering of Help and Hope

The leaf of the Graviola tree set in resin for you to wear

A potent symbol of Mother Nature's ability to provide for your every need. The fruit, leaves, roots, bark and stems of this plant, also known as sour-sop, are found in the ancient rain-forests of Indonesia and the Amazon and have been used for centuries by native medicine men to treat various health problems.

The medicine and message of the sirsak (as it is known in Indonesia, home of Nagicia) are brought to light beautifully in this collection.
